Little (Wells) Waterbody + Tributary 100ft Buffer 2 Miles

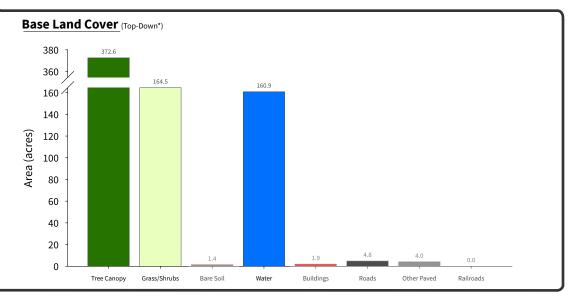

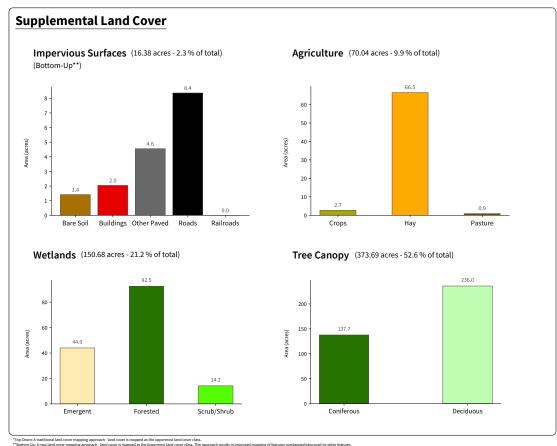

^{*}Top Down: A traditional land cover mapping approach - land cover is mapped as the uppermost land cover class.

*Bottom-Up: A new land cover mapping approach - land cover is mapped as the lowermost land cover class. This approach results in improved mapping of features overlapped/obscured by other feat

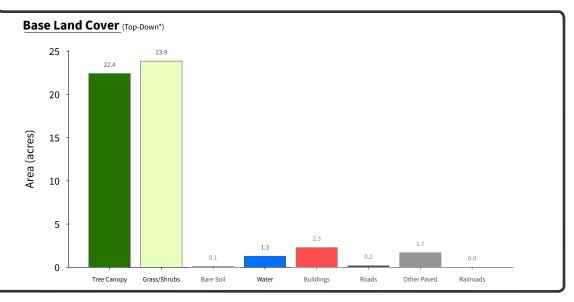

*Bottom-Up: A new land cover mapping approach - land cover is mapped as the lowermost land cover class. This approach results in improved mapping of features overlapped/obscured by other feat

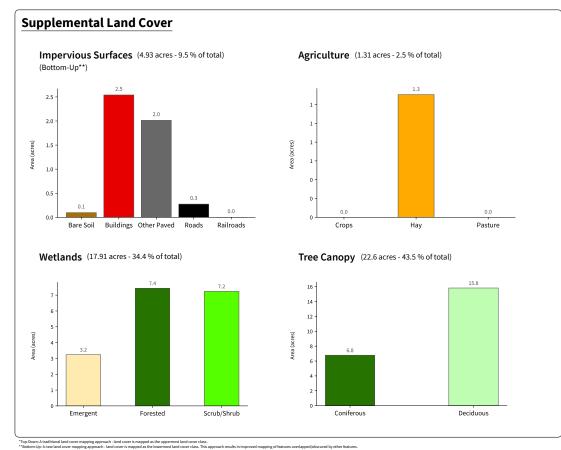

Little (Wells) Tributary 100ft Buffer 2 Miles

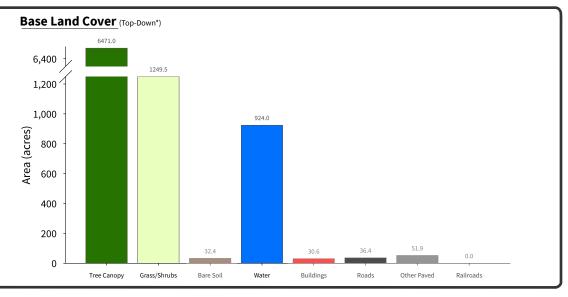

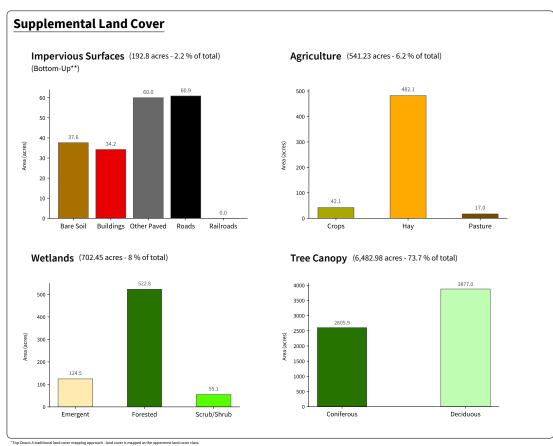

Little (Wells) Waterbody 100ft Buffer 0.5 Miles

Little (Wells) 8,796 acres

^{*}Top Down: A traditional land cover mapping approach - land cover is mapped as the uppermost land cover class.
